THE SECRET OF FEMALE POPULARITY.-Mrs Jane Swissheim, in a late number of her paper, says the reason it is so popular is that the men think she will always be saying something she "oughtn't to say." Success or John B. Gough in England.—
The Temperance orator, J. B. Gough, addressed an audience of three thousand persons, in Exeter Hall, London, recently. A Railway Conductor Discovers his Wife's Paverite Lever in a "Respectable" Meeks.

A young married man, a conductor on the Third-avenue Railroad in New York, advertised a short time since, to admit a boarder. A gentleman applied for the advertised lodgings, with the degree of M. D. appended to his name, surrounding him with a halo of respectability, which made him doubly acceptable to both husband and wife. The doctor is a gay and good-looking man, has been married, but for some reason does not live with his spouse. Well, the day on which the conductor took the doctor to board proved the very worst of his life, for the latter had not been long an mite of the former's peaceful home before he commenced those arts of facination, in the use of which medical men can be so dangerous, upon the pather of his landlerd's bosons.

Opportunity is all the devil wants, and opportunity the guilts couple had. All night long the conductor was away on the avenue cases through the long evenings the trans of medicine was at home with his yielding hostess. Evel oug the conductor suspicious became aroused, and he began to watch the pair. A few evenings ago, pretending to have left for his nightly duty, he suddenly returned, and, softly opening his bed-room door, discovered his wife and the doctor in flagrante delicto. He throught that the best way to the guits couple had. All night long the conductor suspicious became aroused, and he began to watch the pair. A few evenings ago, pretending to have left for his nightly duty, he suddenly returned, and, softly opening his bed-room door, discovered his wife and the doctor in flagrante deleties. The Two Mexican Prize Steamers Libeled.

Henry C. Miller, Esq., United States District Attorney, has laid before the United States District Court, in Admiralty, petitions of libel against the steamers General Miramon and Marquis de la Habana; each in the name of the United States, and of Commodore Thomas Turner and the officers and crew of the United States sloop-of-war Saratoga. The general charge against the two steamers is that of piratical aggression. The specifications are rehearsals of the different incidents which led to the pursuit and capture of the two steamers near Vera Cruz, with all which incidents the public are sufficiently familiar. It is highly probable that the libels will be made good upon trial. In this event, the confiscation will result handsomely for Commodore Turner and the officers and crew of the Suratoga—they being entitled to one-half the value of the prizes, and it being stated that the fitting out of the two steamers at Havana cost at least \$300,000. Commodore Marin, who had the two steamers upon the cost at least \$300,000. Commodore Marin, who had the two steamers under his charge, has been released on bail of \$3,000, before the United States Circuit Court. The officers and crews still remain prisoners of war in the parish prison.—

Family of Twelve Persons Poisoned

Stealing Flour-Three of them Dend and the others in Danger. the others in Danger.

A family, consisting of some twelve members, living in the neighborhood of Fayetteville, Brown County, Ohio, named Story, were a few days since almost simultaneously seized with vomiting, and a physician having been called in, found the whole number poisoned. The family having sustained a reputation by no means enviable in the neighborhood, suspicions were immediately raised that this was but the result of some of their evil deeds. Arsenic was at last detected in the flour of which they had all partaken; and, upon closely questioning the mother, actuated partly by fear of her death, she acknowledged that she had stolen the flour from a mill in the neighborhood on the previous evening. The miller, it seems, had placed arsenic in some of his flour in order to kill the rats and other vermin which were destroying the sacks in which it was contained, and of which prepared flour the old lady had taken and thus poisoned her family. Three of the family have since died from the effects of the poison.

A WOMAN MADE RAVING MAD BY ATTEND A WOMAN MADE RAVING MAD BY ATTENDING A METBODIST REVIVAL.—Sarah Anderson, a servant girl, residing with Mrs. Dale, of Newport, England, returned a few weeks since from a Methodist revival meeting, in a fearful state of mind. Her very features were affected. She said she had been converted. Her companions and she had been so frightened by the influence of the service that they had to be accompanied home. The preacher had said something about the girl taking care of herself, or the devil would get her. Her friends had no control over her. She became delirious, and was sent home. She escaped from them during the night, and was found next morning in the cow-byre, holding two of the cows by the tail, singing hymns and songs, and shouting and praying. All means to restore her rationality failed. She went to Newport raving mad.

A SLAVE BEATEN TO A JELLY.—Henry Henderson, of New York, employed to drive the stage from Aberdeen, Miss., to Prairie Station, literally beat to death a negro man belonging to W. J. Gorden, at the last named place, on Saturday night. The negro had disobeyed some order given him by Henderson, when the latter took up a poll-strap of the stage, weighing one and a quarter pounds, with a large buckle on one end, and gave the negro, as he said himself, about one hundred and seventy lashes, beating him into a mush from his thighs to his shoulders, and fracturing hisskull. Henderson attempted to escape when he heard of the negro's death, but was arrested and imprisoned.

DESTRUCTIVE ANIMALS KILLED IN THE FRENCH FORESTS.—A letter from Paris says that the number of destructive animals dethat the number of destructive animals de-stroyed in the forests of the Crown, during the last six years, by the keepers, by trap or by gun—birds and beasts included—amounts to 154,517. Into this total enter 88 wolves and whelps of wolves, 5,211 foxes, 213 bad-gers, 3,650 martins, 2,050 polecats, 1,597 stray dogs, 7,754 wild cats, 34,452 weasels and hedgehogs, 4,477 buzzards, 7,451 sparrow-bawks, 10,170 owls, 18,495 crows, 21,500 mag-pies, 17,479 jays, 6,030 squirrels, and 10,822 rats and field mice.

Surr ron Regrence a Vore.—In the Huron County (O.) Common Pleas a suit was brought by Stephen Robinson against Wheeler and others, judges of election, for refusing the vote of the furmer under the "visible admixture" law. The verdict for plaintiff against the defendant for refusing said vote was one hundred and eighty dollars.

"What have you got in the basement of your pants?" cried Ned. "Milwaukie bricks," shouted the merchant; "and we arn't within a mile of Springer-street yet." Osborne subsided, paid the champagne, and has been wearing a list slipper ever since.

The Tender Passion in a Poor-house A Couple of Venerable Paupers Deprived of Counniblal Bliss.

In the Cohasset (Mass.) poor-house there lives at this time an aged pauper, who has attained to the somewhat remarkable age of eighty-six years, and in the same establishment lives an artificated define who is his eighty-six years, and in the same establishment lives an antiquated dame, who is his junior by eight summers. Notwithstanding the frostiness with which so many winters have naturally invested this yenerable couple, they still retain sufficient warmth of affection to institute a deep reciprocal attachment, and the aged pair are warmly desirous, even at their late day, of perpetrating marrimony. But the lady being a resident of the town of Hull, which pays her board to Cohasset, and the old gentleman belonging to Cohasset, a difficulty has arisen in their case, and the course of their true love has been crossed in its march by the town of Cohasset's shutting down, on the ground that if their mutual desire is consummated both of them will come upon that town for both of them will come upon that town for support, and the subsidy from Hull be lost. The parties warmly plead their desire, but the Selectmen are inexorable, and it is most likely that their nuptials will be indefinitely

A STAGE COACH WITH THE MAILS AND BAGGAGE EXTRELY DESTROYED BY FIRE.—A few days since the coach carrying the mail from Lock Haven to Tyrone, Penn., took fire and was entirely consumed, together with the mails and the baggage belonging to the passengers; the accident occurring through the negligence of one of the passengers in throwing a lighted match into the straw in the bottom of the coach. In an instant everything was enveloped in flames, and it was with difficulty that the passengers escaped from the stage unburt, while to make the matter worse, the horses took fright and ran. Before they could be stopped the coach was so much burnt that neither mails nor baggage could be saved. It was fortunate that no ladies were on board, as they could not have been rescued—the flames spread so rapidly.

TEN INDIANS KILLED IN TEXAS.—The following account of a desperate encounter with a body of savages we find in the San Antonia (Texas) Ledger of the 24th alt:—"In Antonia (Texas) Ledger of the 34th nit:—"In our issue of Monday last we gave an account of a fight between five Germans, from Castroville, and a party of ten Indians, in which the latter succeeded in getting away with most of the horses they had stolen. Upon the return of the Germans to Castroville, a company was made up and started in pursuit. company was made up, and started in pursuit of the Indians on the 14th. About the Hondo they were joined by some of the settlers, and shortly afterward overtook the savages, and, after a desperate encounter, killed ten of them and recovered all the horses."

Self-respect the Beginning of Good Manners.—The beginning of good manners is self-respect. Necessity is the law of all who are not self-possessed. Those who are not self-possessed obtrude and pain us. Some men appear to feel that they belong to a pariah caste. They bend and apologize, and walk through life with timid step, as we sometimes dream that we are in well-dressed company without any coat. They act as if they suffered from some mortifying circumstances; but the hero or gentleman should be always at home where he is, and look comfortable in every situation.—R. W. Emerson.

ONE OF HOOK'S JOKES .- Dr. Kitchener whose name fully bore out his devotion to the culinary art, piqued himself upon his punctuality, and was in the habit of having the following motto written over his side-board for the benefit of his evening visitors. "Come at seven, and go at eleven." Theo-dore Hook, who always liked to get into what are called the short-hours, added the word "it" to the above, and great was the surprise of the worthy doctor, when he found that, by the alteration, the notice read as follows: "Come at seven, and go it at eleven."

THE REASON THE WORLD DON'T IMPROVE. Do you know why the world is no better than it is? Because each of us believes that the warnings, the teachings, the wise in-culcations, the hits at folly, the moral aphorism, the shafts shot at vice and crime from pulpits, press and stage are all intended for our right hand neighbor, and our left hand neighbor—our withers are unwrung.

A Poor-house Destroyed by Free.—The Sullivan County Poor-house, at Monticello, N. Y., was destroyed by fire on Friday morning. A part of the furniture was saved. There were about seventy paupers in the building when the fire was discovered. They all escaped, and are now housed in the barns and out-buildings belonging to the institution. The fire is supposed to have originated in the roof from a spark from the chimney.

A Man Killed by Drinking Chrosotz Though a Mistare.—Thomas Howard, a livery-stable keeper, went into a drug-store in Cleveland, on Tuesday evening, and saked for a glass of brandy. The clerk of the establishment placed a jar of the liquor mpon the counter, but Howard mistook it for a bottle of creosote, and pouring out an ordinary drink, swallowed it, and in spite of medical aid died in two hours. TOUGH BEEF AT THE CHARGESTON CONVEN

riox.—In view of the approaching events the following paragraph, from the Chatanooga (Tenn.) Advertiser, has a fearful significance. "A citizen from Charleston, S. C., came up the other day, and paid \$36 a piece for each of those eight steers that have been hauling rock from the river to the depot for the last week or so."

Important Discovery.—It is announced that Prof. Greenough, of New Orleans, has succeeded, after much investigation, in impregnating common burning fluid, or camphene, with carbonic acid gas, as a neutralizing agent, which, leaving the inflammable nature of the fluid unchanged, makes it unexplosive, and, consequently, harmless.

Both are accused of murder in this city, and both, at the time of the murders, escaped from the country.

One is Antonic Carcano, a Spaniard. Some years ago he stabbed and killed an old sallor in a coffee-house on Gallatin-street. He was chased by Lieutenant Freumax and other police officers, so far down as the old paper-mill in the Third District; was shot at several times, and wounded in one of his legs, and still managed to escape into the swamp, and to get off to Havana. At Havana he killed a man and fied to Port-an-Prince, in Hayti. After other wanderings and adventures, he returns to this city, a United States prisoner of war, as above mentioned.

The other distinguished prisoner is a man whose brother was hung, and another man hung, and whose other brother was sent to the penitentiary, all for a murder in this city, some years ago; and he himself would have been lung had he not escaped. This man is Louis Delisle. He and his brothers Antonio and Henry, and a man named Adam, robbed the house of Mr. Chevillon, in the Third District, taking a large sum of money, and cutting the throat of a slave girl to keep her quiet. Antonio Delisle and Adam were hung in front of the parish prison, the last public execution that took place in this city; Henry Delisle was sent to the penitentiary as an accessory to the robbery and murder. This newly arrived Louis Delisle is said to have had the girl while his brother Antonio took have had the razor in his pocket, and to have held the girl while his brother Antonio took the razor from the pocket and cut the girl's

throat.

The Clerical Politician and Gen. Jackson "When Gen. Jackson was President of the United States," said an aged laborer in the Presidential garden, a few years since, "he could tell an honest man from a rogue when first he saw him. I remember that a clergy-man with a stiff white choker and an untarnished suit of black, called upon him one morning when he was overlooking some work. morning when he was overlooking some work that I was performing in the garden, and re-quested an appointment to some office, say-ing. "General, I worked harder for your elecing, "General, I worked harder for your election than many of those upon whom you have already bestowed office." "You are a minister of the Gospell" said Old Hickory, inquiringly. "Yes," said the clergyman, "I was a minister, but I thought I could do better by becoming a politician. So I stumped the district week days for you, and preached for the Lord Sundays." Old Hickory, turning short toward him, and looking him full in the face, said, "By the Eternal, if you would cheat the Lord you would cheat the Lord you would cheat the Lord you would cheat the thory on with any like you. Good morning," and he walked rapidly away. I never shall forget the looks of that hypocritical elergyman. Had the last judgment been set, and he before the great white throne, I doubt if he would have looked more blank and chop-fallen. more blank and chop-fullen

Foxes Incompatible with the Scriptures.

Foxes Incompatible with the Scriptures. That was a novel, but not so bad an argument, which the mountain member urged in the Kentucky Legislature.

A few years ago, a bill, proposing a premjum on fox-scalps, was under discussion. It had been somewhat roughly handled in debate by members from the more populous regions, where foxes were scarce, and Mr. L.—, from one of the mountain counties rose to reply. I give only his percration:

"And are we, Mr. Speaker—we of the mountain regions—not only to witness the annual destruction of our crops, but actually to be deprived by these varmints of the consolution of religion?"

This woke the House up, and set it agape for an explanation. He continued—
"You know, Mr. Speaker, that we live in a "You know, Mr. Speaker, that we live in a rough country; that your fancy churches—your Presbyterians and Episcopalians—never send preachers among us. We depend for the Gospel upon the circuit-riders of the Methodist Church; and, sir, every body knows that they can not be induced to travel where there are no chickens, and that chickens can not be raised where foxes abound!" The argument was unanswerable, and the

Sudden Death of an English Baron.—
A melancholy event occurred yesterday at Welshpool, says the London Times of March 14, which has created a most painful sensation, and which vividly recalls the circumstances of the sudden death of Justice Talfourd, a few years ago. Baron Watson had arrived at Welshpool on Monday evening and opened the assize commission. Yesterday morning he attended divine service at the parish church, and immediately afterward proceeded to open the court for the trial of prisoners. He kad just concluded his charge to the Grand Jury, which he delivered in a firm and clear manner, when he appeared to be suddenly seized with illness. Several medical gentlemen who happened to be in the court immediately rendered every possible assistance, but without avail. His Lordship was placed upon a sofu-cushion and quickly carried to his lodgings, which were only a few yards distant from the court. He had scarcely arrived there when he ceased to breathe. New York Praise of Onio Cattle.—The Tribune in its last New York cattle market report, says the best western drove in market is fifty-five well-fed Durham steers from Adam Miller's farm in Pickaway. County. They sold for 9½ and 10½c. One pair for \$275, and fourteen at \$100 each, including a fine Martin heifer and her twin; another heifer sold for \$100. They were all counted 14c. per pound net. Malcom and Roberts, of Marion County, had one of the best lots in market. One pair sold for \$248, another for \$245, and a still another for \$225, and a single steer for \$120. The drove averaged 1,536 pounds per head. John Clark's drove, from this county, are spoken of as good, fat, small-street, old-style steers, and brought 9½@loc. NEW YORK PRAISE OF ORIO CATTLE.-The

The House of Pilate at Seville,—The House of Pilate, at Seville, Spain, says a recent letter-writer, was built over three hundred years ago by the Duke of Medina Coul, on his return from Palestine, in imitation of the house of Pontius Pilate. In one of the rooms is a marble pillar intended to represent that at which the Savior was scourged, and the murble floor beside it is stained to imitate blood. The house and grounds are kent in good order, and are well grounds are kept in good order, and are worth visiting.

WHITE WHALE LEATHER.-A new kind of leather has made its appearance in market, made from the skin of the white whale found in the river St. Lawrence. From this can be made superior kid, sole-leather, harness-leather, and black leather for boots.

A Southum Scientific A Southern paper suggests the propriety of sending those persons who are caught while engaged in the slave trade to the North to be tried, and sending South for trial those who disobey the fugitive-slave law.
